

About STL

Established in 1979, STL first produced a telephone answering machine based on a dual standard cassette tape drive. The company started with less than 100 employees inside a factory of 7,000 square feet.

STL started production in the People's Republic of China in 1998. Today, STL owns and operates a 400,000+ square ft. design and manufacturing facility and employs 2,000 employees.

STL's head-office is in Tsuen Wan, Hong Kong. We have a proven track-record in delivering cost-effective quality products and excellent service to our customers.

STL is a privately-held company.

STL Electronics Ltd.

ISO9001 certified quality OEM/ODM services with more than twenty-five years of Experience and Excellence

Company Information Brochure

OEM/ODM Services

STL provides OEM and ODM services primarily to customers in North America and Europe. We have supplied products to AT&T, Ericsson, KPN, BT, SouthWestern Bell, Hill-Rom, Shaper Image, and many others.

Our experienced R&D and engineering staff are able to support our customers with:

- Product definition
- Mechanical, industrial, PCB and electrical design
- Software design and development
- QA Engineering
- Styling
- and other design and engineering services

Over the last 25+ years, we have developed excellent in-house capabilities in a wide variety of product-lines, including:

- High-voltage products
- Recreational and home-use robots
- Telephone products
- Health care products such as Carephones and alarms
- Wireless products
- and many other consumer electronics products

In addition, STL has close working relationships with major universities, as well as with Hong Kong government-funded research organizations for access to the latest technological innovations.

Our Facilities

STL operates a large, modern facility in Yuan Zhou in Guangdong province.

STL's Factory in Yuan Zhou

Already established in-house manufacturing technologies include: through hole, SMT, TAB, bonding, BGA and Chip on Board.

STL has extensive QA and testing experience with various types of RF, high-voltage and telephone products. We can conduct burn in, drop tests, vibration tests, UL-standard V0 flammability testing as well as other types of testing required by our customers.

Quality

STL takes quality very seriously. Our facilities are certified by ISO 9001. Many of our products are FCC, ETL, UL or CE -certified. Over the years, we have received many quality awards from our customers.

STL has a lot of expertise in product support, including:

- Failure analysis, using state-of-the-art equipment such as X-ray machines
- Production/process control
- Tool design and troubleshooting
- Test fixture design

FeinFocus Tiger-series X-ray machine
